RACHANA KUMARI SINGH

Senior PHP / Laravel Developer | AI Integration (LLM APIs)

New Delhi, India (Open to Remote) | +91 8368066493 | rachanasingh.dev@gmail.com
Portfolio: rachanasinghdelhi.github.io/portfolio | GitHub: github.com/rachanasinghdelhi

PROFESSIONAL SUMMARY

Senior PHP/Laravel developer with 15+ years of experience building and maintaining 50+ production websites and web applications using PHP, Laravel, MySQL, JavaScript, React and WordPress. Owns projects end-to-end — client requirements, database design, REST API integration, deployment and long-term maintenance — working directly with business owners and delivering independently. Built a multi-provider AI system (DeepSeek, Gemini, Ollama) inside a Laravel LMS that generates courses, quizzes, narrated videos and SEO content. Also mentors junior developers and trains students in web development, which strengthens code-review and communication skills valued in remote teams.

TECHNICAL SKILLS

- **Backend:** PHP (OOP), Laravel (MVC), REST APIs, MySQL / SQL, relational database design
- **Frontend:** HTML5, CSS3, JavaScript, React.js, responsive & mobile-first design
- **CMS & E-commerce:** WordPress (themes, plugins, custom builds), e-commerce websites
- **Tools & Practices:** Git, GitHub, production debugging, deployment & site maintenance
- **AI & Automation:** LLM APIs (DeepSeek, Gemini), local LLMs (Ollama), prompt engineering, structured JSON output, multi-provider fallback, TTS, AI content pipelines, Python automation, AI coding agents (Claude Code, OpenAI Codex)
- **Supporting:** Laravel queues, UI/UX design, technical & local SEO, Adobe Photoshop

WORK EXPERIENCE

Senior Web Developer & Technical Trainer **Mar 2011 – Present**

Nice Web Technologies (NWT Institute), New Delhi

- Built and delivered 50+ client websites and web applications using PHP, Laravel, MySQL, React and WordPress for clients in retail, healthcare, education and hospitality.
- Maintain the institute's Laravel-based student learning portal, diagnosing and fixing production errors in course and lesson modules to keep the platform stable for active students.
- Designed relational MySQL databases and integrated REST APIs to power dynamic, data-driven sites.
- Managed and optimized e-commerce platforms for speed, usability and conversion, supporting higher client sales.
- Run full project lifecycle: requirement gathering, UI design, development, testing, deployment and ongoing support.
- Conduct code reviews and mentor junior developers; teach web development courses to institute students.
- Implemented technical and local SEO on company websites, helping the institute's Google Business Profile reach #3 for “computer institute in Delhi”.

SELECTED PROJECTS

- **AI-Powered Laravel LMS |** Laravel, DeepSeek, Gemini, Ollama, Google TTS — multi-provider AI system that generates courses, lessons, quizzes and exams, runs SEO blogging automatically, powers a voice AI language tutor and produces narrated lesson videos. Built with Laravel queue jobs, JSON-schema outputs, retries and provider fallbacks, plus a human approval step before publishing.
- **Developer Portfolio |** HTML, CSS, JavaScript, GitHub Pages — personal portfolio showcasing client web and design work (link above).

EDUCATION & CERTIFICATIONS

- **Bachelor's Degree in Computer Science** – Swami Vivekanand Subharti University
- **Diploma in Computer Applications; 'O' Level & 'A' Level Certifications** – NIELIT
- **Computer Teacher Training** (CTT) – 2-Year Diploma

Languages: English (Fluent), Hindi (Native)
